

ANISHA RAJ

ABOUT ME

I am currently looking for an internship/junior Web Developer position. I enjoy designing and coding beautiful, user-friendly and accessible User Interfaces, it resonates with my creative side. I am a curious person, who is always ready to learn something new and I love meeting & collaborating with people. I have gained knowledge of JavaScript, React, SQL, REST APIs, HTML5 and CSS3. I recently finished a client project and as of now, I am working on my own project with aim of learning backend programming.
